PROFESSIONAL SUMMARY

I'm a full-stack software engineer who moved from managing \$2M+ sales pipelines into building AI systems: RAG, voice transcription, and local LLMs, all with React/Next.js, TypeScript, and Python/FastAPI. I ship privacy-first systems end to end, from PIN+JWT auth through CI/CD pipelines, and have architected real-time interfaces with WebSocket's, background workers, and queue-based job processing. I have built ready applications that use observability tools, evals, rate limiting, cloud LLM data retention and with graceful failures.

TECHNICAL SKILLS

Frontend: React, Next.js 15, React 19, TypeScript, JavaScript, Tailwind CSS, Vite, React Router, React Query, Radix UI, Framer Motion, Three.js, Recharts

Backend & APIs: Python (FastAPI, Flask), Node.js, Express, REST/GraphQL, OpenAPI, Socket.IO, JWT, OAuth

Databases & Data: PostgreSQL, Firebase (Auth/Firestore), ChromaDB, Redis, SQL, Zod, JSON exports

AI & LLM Integration: Gemini API, RAG (ChromaDB), faster-whisper voice transcription, LoRA fine-tuning, Ollama, OpenAI/Anthropic, Prompt Engineering, AI Agents, Local LLMs

DevOps, Testing & Cloud: Docker, docker-compose, GitHub Actions, CI/CD, Playwright, Jest, Vitest, AWS, Cloudflare, Render, GitHub Pages, Firebase

Security & Architecture: Privacy-first design, PIN + JWT auth, bcrypt, OWASP practices, rate limiting, consent/ethics layers, provenance tracking

CODING PROJECTS

LegalEagle Privacy-First AI Platform for Estate-Planning Attorneys *Next.js • React • TypeScript • PostgreSQL • Python*

- Built and launched a complete practice management system for attorneys to handle clients, cases, deadlines, documents, and scheduling with secure login and full activity tracking.
- Created a smart AI assistant that searches records, updates tasks, and drafts documents while automatically protecting sensitive client information through built-in privacy tools.

Valleyforgeautomotive.org Mechanic Shop Management System *React • TypeScript • Firebase*

- Developed a full web app for managing inventory, appointments, and customers with secure login and performance optimizations.
- Added strong security features to protect user data and prevent unauthorized access.

Stardust Privacy-First AI Digital Legacy Platform *Next.js • React • Python • PostgreSQL • Docker*

- Built a secure platform that helps people record and preserve their life stories through guided interviews, voice input, and easy exports to PDF and other formats.
- Added AI features for personalized chat while keeping everything private and ethically handled.

PROFESSIONAL EXPERIENCE

AI Search Quality Evaluator | Activus Connect (Remote) | Nov 2025 – June 2026

- Evaluated complex queries against Google Gemini outputs and delivered structured feedback on factuality, alignment, and quality.
- Built expertise in AI evaluation, prompt engineering, and quality metrics, applied directly to personal RAG and agent projects.

Account Executive | Citizen Observer – St. Paul, MN | Sep 2022 – Aug 2024

- Led platform adoption across six municipalities through targeted campaigns to government and public safety stakeholders.
- Delivered 100+ technical product demonstrations, translating complex features into clear business value.
- Managed the full sales cycle and exceeded targets across six municipal accounts in a competitive public-sector environment speaking with Police Chiefs, Mayors, and other city officials/officers.

Sales Development Representative | Digital River – Minnetonka, MN | Jul 2021 – Jul 2022

- Qualified prospects and contributed to closing a \$500K+ deal through targeted outreach.

Account Executive | INRY – Eden Prairie, MN | Oct 2020 – Jul 2021

- Managed a \$500K+ pipeline end to end for ServiceNow solutions and built strategic relationships with HR/IT stakeholders.

Business Development Representative | Epicor Software – St. Louis Park, MN | May 2019 – Jun 2020

- Qualified \$3.7M in opportunities and earned an Excellence Award from the CEO for performance.

EDUCATION & CERTIFICATIONS

Coding Temple — Full-Stack Software Engineering Certificate | Feb 2026

Microsoft Azure AI-901 Engineer Program — In Progress

University of St. Thomas — B.A. Marketing, 2019

Harvard Business School Online — Certificate in Business Analytics, Feb 2021
